

THE CALGARY CALL

VOLUME XXX NO. 43

GLEICHEN, ALBERTA, WEDNESDAY JANUARY 12 1938

SUBSCRIPTION \$2.00 PER YEAR

WHAT THE COUNCIL DID AT THE LAST MEETING

The first meeting of the town council on last Tuesday was held in the town office with Mayor Farrell and councillors Michael, Deshayes, Mead and McDonald present.

W. Sturmer was present and spoke to the council at length regarding certain properties in town.

A letter was read from the relief department of Calgary in connection with the Brownery's family. The secretary was instructed to notify the relief department that Mrs. Brownery had asked assistance against the winter police protection and that if left alone she could go down to the relief department and ask for help.

Application had been made by W. Anutoshkin for relief. The municipal office of Livingston to which a recommendation had been made that he be allowed by the municipality \$5 a month for fuel and milk. This relief was granted by the council.

Other applications for relief by local people were received. The matter looked into and granted to a certain extent.

Councillor Michael reported the water connection to the main estate had been completed. He added the house was in a bad state of repair and to have the place properly repaired it would cost a little more than anticipated.

The mayor advised the council that a letter had been received from the sheriff in connection with the collection on the sewer and thought it wise to refer the matter to the board and leave it in his hands and see if some settlement could be effected. The matter had been with the mayor's suggestion was followed and Mr. Boyd was appointed to look into the matter and the council will follow his instructions.

A discussion took place in connection with the advisability of painting the interior walls of the Co. B. P. Hall. The matter was left in abeyance for further consideration.

As time was passing the council moved the adjournment. P. Deshayes seconded the motion and all the councillors heartily agreed and called the meeting to an end.

THE WORLD OF WHEAT

By R. G. L. Stange Director of "Crop Testing Plan."

Thatcher, that new valuable rust-resistant wheat, is truly an international product.

Marquis formed two of the four grandparentes of Thatcher, and Marquis was originated by the Central Experimental Farm, Ottawa. One of the other grandparentes was Lancelot, an Italian durum wheat. Another grand parent was Kanred, a selection from Turkey Red, Russian Black Sea variety.

Going back a little further, we find that the parents of Marquis in turn were Red Fife, which came from the shores of the Baltic Sea in Germany, Poland, and Calcutta wheat, a selection from wheat from the Himalayan Mountains.

Thatcher, therefore, going back only three generations, can really be said to be the final product of the vision, imagination and talented work of the plant breeders of the United States, Canada, Italy, India, north and south Russia and of Germany.

What a remarkable picture of international co-operation between the scientists in agriculture of many races and nations; all finally resulting in a considerable increase in income to the farmers of the United States and Canada; resulting too, in substantial benefits to all engaged in the international wheat industry, and to the people of the whole world who consume wheat bread.

"Should I continue with Garnet wheat, or should I use a different variety?" If a different, then which one?

These are questions that are disturbing those farmers who now depend upon Garnet for a living. It is true over 200 million bushels of Garnet, mixed in No. 2 and No. 3 Northern, have in recent years been bought and used by millers, and bought, moreover, at relatively good

prices. Yet very little pure Garnet under that brand name has so far been sold. What the price of Garnet will be when offered only under a special "Garnet" grade name, there for remains to be seen.

For those who desire to change from Garnet to another variety, Red Fife, being sold earlier than Marquis, has much merit. Some farmers have even found that Marquis will fertilize early enough for certain areas. Red Fife is a high quality early wheat, but the yield, unfortunately, is rather low.

LADIES OF U.F.W.A. MEET AT HOME OF MRS. MCARTHUR

The ladies of the U.F.W.A. met at the home of Mrs. McArthur, Thursday with 17 members and one visitor present.

The meeting was opened by singing "The Tavern in Our Town." The roll call was answered by Last Year's Resolutions and how I kept them.

The minutes and much correspondence was capably dealt with. The hours of the meeting was changed to 2 o'clock during the winter months. The tea, bids and raffle was also dealt with and is for members only. Much discussion took place in regard to raising money for the ensuing year. It was decided to make two quilts during the meeting hours. Mrs. McArthur will have charge of same. Motion was passed that the secretary have no duty to pay while in office.

Mr. Oliver was given a hearty vote of thanks for his splendid work as secretary for the past two years and as presented with a remembrance gift as a token of appreciation by the members.

The tea price was drawn for an won by Mrs. McArthur. The meeting adjourned for February 3rd has been changed and will be held at the home of Mrs. J. C. Hutchison instead of Mrs. Umbreit's.

The meeting then adjourned after a much enjoyed tea hour following which all left to meet again at the home of Mrs. A. N. McLeay, on Thursday, January 21st.

GUNNERS TIE IN ONE GAME WIN ANOTHER

The Calgary Red Wings again the newly formed league's game on Friday evening with the Gunners. With overtime playing... game ended with 7-7 score. The last shot of the season was on goal and they saw a split-second game.

Gleichen had the honor of missing the first goal by E. Lester. Brown. Almost immediately after the wings nearly scored again. The wings scored by Witz from Gilles. Brown was handed a penalty two minutes before the period ended and the wings sent every man up giving Wilson a hot time. However, Wilson weathered the blast and drove off all attacks. During this time E. Lester and B. Brown broke away with no shot to beat but lost the puck.

Shortly after the second period started E. Lester combined with B. Brown to score. McTigue then scored for the wings. This game was very close. It was shot from near the boards at an impossible angle. It hit the net, but the puck got into the net through a hole in the side.

After the game, the goal judge was gazing at some of the girls and never saw the puck until some moments later in the net. He did not know how he got in anyway he called it a goal. A lot of talk then ensued. After much shouting about the goal the game proceeded. Gleichen's first string of players were busy and in a three way play came Brown scored being assisted by his brother Robert and E. Lester.

Next goal was made by B. Brown from Murray. Tom Brown, the Gunners' only defence man picked up a penalty and the wings awarded in on the Gleichen net a little too sure. Brown the fastest of all the players suddenly broke away to the shore of the crowd, he could not be headed and nobody but the goal to beat made sure of his shot and bulged the twine. The period was noted for its close checking.

Calgary made the first goal in the first period by Bootman from Gilles. B. Clifford from W. Lester scored for the home boys, followed almost immediately by a center for the Wings by J. C. Tipton who picked up a loose puck the same lad scored again a few moments later. C. Brown for the Gunners picked up his own rebound to score. Bootman of the Wings scored two goals in succession tying up the score before the period finished.

CASTING ASIDE THE BENEFIT OF EXPERIENCE

It is disgusting to any thinking man to read the pitiful, which is written about a man being worn out at fifty, and if he should happen to live the honored three score and ten, the world will stop functioning. A lot of good printer's ink and valuable newspaper space is wasted giving publicity to such willy twaddle, which in the last analysis, is a base appeal to inexperienced youth. Even youth is not fooled, as he through his experience has his fingers burned so often, that he is ready to listen to men of more mature experience.

Physicians tell us that the advancement in medical science has lengthened the average life of man, while age today are living to ripe ages than in the past. But what is the use of a man living, if he has begun to weaken at fifty. First thing on knows, babies will be born with a ready made education, and a knowledge, which will enable them to meet all the problems of such life time. Of course, we have listed to wonderful tales of "My or My Baby," but fond wishes and fond papers are to be expected.

However, getting serious, inexperience has cost Alberta, and every part of the world a heap of money. It enters into the cost of a service, or an article and the consumer pays for it. Inexperienced men are put at the head of things and their education begins where the experienced man's knowledge is right at the disposal of his employers or associates. Every time an executive states that his

The overtime saw no score but it had its exciting moments of hockey as well as a couple of fights that for a few moments looked as if it might develop into a free for all.

Officials B. James, of Gleichen and Poffertoff, Calgary. Gleichen, players: Wilson, T. Brown, Maynard, Murray, E. and C. Brown, N. and E. Lester, Clifford Desjardins and Wolf.

Wings: Norval, Bootman, Laine, Weber, Wink, Luff, F. Kromm, McTigue, Witt, Gilles, J. Kromm.

The Pee Wees played their first league game Saturday morning when the Americans played the Old Sun School. The Canadians, Old Sun the game 3-4. The Americans were short of substitutes.

staff is worth so many thousands of dollars, he means they are trained of experienced men, or, if they cost that much, then the shareholders of the company were the losers or the consumers had another reason for the high cost of living.

Big business some years ago played to the public, they must have gone fast steps with great vision. The situation in New York got so bad that men forty and fifty, in the prime of their usefulness, were on the bread line in thousands, as a sacrifice to this foolish idea of the heads of big corporations. Big business began to suffer and began to co-operate with the superintendent of unemployment to get these experienced men back into the scheme of things.

The first twenty five years of one's life is a period, when he is monarch of all he surveys, the next twenty five years finds him really ready to contribute something worth while to the community and world. Just why a man should be cast aside at fifty or

sixty, or beyond that is hard to understand, provided that he is mentally capable, and physically fit. The matter of age does not enter, and experience is the greatest factor needed today.

No real man wants to lay down his task as long as the Lord's grace him mental faculties, and provides him with sufficient physical energy and the community would indeed be the loser, if this were not so. Let us have less cheap talk about getting rid of experienced men, let us honor age and experience, and never let us be guilty of casting aside the benefit of experience. The prodigal son came back, and the prodigal son ideas in business, community and family life have a habit of coming back after eating the fruits of their foolishness. Never was there a time like the present, when the wisdom of the sage experienced thinking of men who have been through the mill.

The big question at present is: what did Lou Michael present Mrs. Haskayne for Christmas?

Here's a real buy!

THAT MEANS A BIG SAVING IN MONEY FOR YOU

Think what this wonderful offer will mean in enjoyment throughout the whole year for yourself and your family. Magazines of your own choice and this newspaper, packed with stories, timely articles, helpful departments and colorful illustrations. Now is your chance.

STREET OR R.R.

TOWN AND PROVINCE

From 98

Not flying nor rolling down to Rio but leisurely sailing there aboard a luxury liner will go a happy crowd of winter cruise tourists as January when the Canadian Pacific liner Empress of Australia heads south from New York January 15 on a West Indian and South America cruise. The glamorous Latin city that was named Rio de Janeiro because its harbor was discovered in the month of January and mistaken for the mouth of a river claims that the harbor is the world's most beautiful. Certainly other ports would have to show much to rival this claim, and the Empress of Australia's cruise passengers will return confirmed "Rio fans".

From the heights of the lofty Corcovado a mountain peak on which stands a huge figure of Christ, and from the summit of Pao d'Acucar, the famed "Sugar Loaf", members of shore excursions will have a rare view of the city and harbor. Scarcely in itself is the ascent of the Sugar Loaf by aerial cablecar in two rides, first to the halfway station on Pao de Uru, then to the summit of the conical Sugar Loaf itself.

Besides these two excursions there are other interesting ones, the five-day visit. The lovely mountainous region of Ilha and the mountain residential section of Petropolis will be the objects of a party excursion to enjoy the night-life.

Rio is not the only port of call on this cruise. Barbados, Grenada and Jamaica are islands that will be visited during the 32 day trip. While off the mainland of South America, La Guaira, Venezuela, will also with Rio the titanic Empress of Australia's passengers who will be back in New York on January 21.

Pictured above are the Teatro Municipal at Rio, a view of Baia de Botafogo Bay from the Corcovado and the Sugar Loaf, the cable-car ascending the latter, and the Empress of Australia, the cruise ship that will visit Rio.

The Gleichen Call

Town & District

The members of the Legion are planning to hold a dance on Feb. 11th in the Community Hall. More information later.

The auditors have been busy for several days auditing the town books.

Monday evening in Calgary the Gunners defeated Jenkins Blue Bombers 6-4. The Blue Bombers will play a return league game here Friday evening. A large crowd of fans is expected to be on hand.

Many subscribers of The Call have recently paid up their subscriptions and the mailing list has been corrected up to the moment. If there are any whose labels do not bear the correct date of their subscription let us know about it immediately. We would be glad to hear from those who are in arrears and payment would be very much appreciated.

The Strathmore Junior Hockey boys played a return game to the local Juniors Monday night. The visitors won by a 3-1 score. The game was played in a bitter wind and on a dust covered ice, nevertheless was very fast. It was really surprising how fast the boys can travel. The visitors won because they are better trained, while the local squad showed lack of proper coaching and practice. It is hoped to give the local boys some real workouts right away. Baszmo and Arrowood want to play a game as soon as possible with the local Juniors.

OBITUARY

MRS. ARTHUR GINGRAS

The death occurred Friday of Mrs. Arthur Gingras of Cluny following a very short illness. Funeral services were held at the Crowfoot Mission Monday morning after which burial was made in the Gleichen Catholic cemetery. Mr. Gingras was born in Quebec 67 years ago and with her husband and family came to Cluny 22 years ago locating on a farm some 10 miles north of Cluny. Besides her husband the leaves five children, three girls and two boys; Mrs. A. Demelle, of Peace River, Mrs. Fred Ouellette, of Peace River, Mrs. T. Brule at home; the boys Camille and Maurice at home.

THOMAS WATSON

Thomas Watson of Rockford, who has been living at Eventide Home for the past year, died Thursday at the age of 79 years. Funeral services were held Saturday afternoon in United Church by Rev. J. N. Wilkinson assisted by Adj. J. Sutherland after which burial took place in the Gleichen cemetery. Quite a number of friends from Rockford attended the funeral. Mr. Walker was born in St. Andrews, Scotland and came to the province 21 years ago settling in Rockford. By occupation he was a farmer. He is survived by a son who resides in Calgary. Mr. Walker was well known by Mr. James Black, the local bank manager, both having come from the same place in Scotland.

GLEICHEN UNITED CHURCH

Rev. J. N. Wilkinson, Minister.
Mrs. H. Birch, choir leader.
Miss Jean Farquharson, pianist.
11 a.m. Church School.

Following a short service there will be a meeting of the congregation to receive reports from the different departments for the past year, and to transact any other business that belongs to this meeting.

All members and adherents of the church are cordially invited to attend.

ST. ANDREW'S CHURCH

Holy Communion and sermon at 11 a.m.

Rev. G. W. Lang, B.A., incumbent.
The annual congregational meeting of St. Andrew's Church will be held in the Legion Hall on Thursday January 13th at 8 p.m. The success of the church depends on your presence attend and show your interest.

CHRISTIAN SCIENCE

At all Christian Churches last Sunday, the subject of the Lesson-Sermon was "Sacrament." The following is one of the Scriptural quotations contained in the Lesson-Sermon: "He that hath my commandment, and keepeth them, he it is that loveth me; and he that loveth me shall be loved of my father, and I will love him, and will manifest myself to him." (John 14:23.) One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy,

is as follows (page 4): "To keep the commandments of our Master and follow his example, is our proper debt to him and the only worthy evidence of our gratitude for all that he has done."

WORLD'S CHIEF BEEF AND PORK CONSUMERS

There are striking contrasts in the apparent consumption of meat per head of population in various countries states the Imperial Economic Committee. The peoples of New Zealand, Australia, and Argentina eat large quantities of meat, mainly beef and mutton in New Zealand and Australia, the total in each of these three countries being well over 200 pounds of meat per head in Canada, the United States, and Great Britain the per head consumption averages about 140 pounds. In the case of Canada and also of the United States, pork on an average counts for about half, and beef for most of the remainder, but in Great Britain the meat consumption is divided into three distinct categories: namely, mutton 30 pounds; pork 45 pounds; and beef 65 pounds. European countries in general consume less meat. Germany eats more pork than beef. France more beef than pork and neither of them any material amount of mutton, aggregate consumption of meat being approximately 110 pounds for Germany and 90 pounds for France. Of these amounts, pork represented 75 pounds per head of population in Germany in 1936, and in France 38 pounds per head. Denmark is credited with 50 pounds of pork per head of population. That it would appear that Canada and the United States with approximately 70 lb. of pork per population, Germany

many with 70 lbs. and Denmark with 69 lb. are the principal consumers of pork in the world. The term "pork" also includes bacon and ham.
